**Washington**  
WASHINGTON UNIVERSITY IN ST. LOUIS

Vol. 11 No. 24/Feb. 26, 1987

**The Musicians of Swanee Alley**, a 16th-century early music ensemble, will present a concert at 8 p.m. Friday, March 6, at The Sheldon, 3648 Washington Ave. A free shuttle service to and from the concert will be provided for the Washington University community. For more information, see story on page 4.

## Tuition to increase in 1987-88

For the 1987-88 academic year, fees for tuition, room and board at Washington University will increase to \$15,568 — 7.4 percent above the current year. The announcement was made by Chancellor William H. Danforth.

Tuition will be \$11,400 in 1987-88, compared with \$10,500 this year, an increase of 8.6 percent. Room and board will be \$4,168, an increase of 4.3 percent over this year's cost of \$3,998.

"To provide our students with an education of the highest possible quality, Washington University must remain an outstanding institution," said Danforth. "Although we regret the need to increase fees, it is the only way we can guarantee faculty and programs of exceptional value. Of course, financial aid will take these increases into account for those students who receive assistance."

In making the announcement, the University noted that inflation in higher education is higher than that in general society. Significant factors are: attracting and retaining talented faculty; books and periodicals for the library; scientific materials; insurance; and energy costs. Each of these areas has seen increases far above the cost-of-living index.

"We have worked hard to hold down our costs and the tuition increases they produce," said James R. Buchholz, vice chancellor for finance

and administration. "We know that our administrative expenses are lower than those of most comparable institutions and our fund-raising efforts continue to produce extraordinary results."

"However, many of the gifts are restricted, and the result is that gifts and income from our endowment cover only about 24 percent of the costs of operating the University's core academic and administrative functions. We rely on tuition income to cover more than 60 percent of these costs," Buchholz added.

To assist students in meeting costs, Washington University last year announced that its original Tuition Stabilization Plan had been expanded and renamed the Cost Stabilization Plan. The CSP program freezes tuition, room and board costs not covered by financial aid at rates in effect in the first year of the agreement. The plan allows students and their families to borrow at fixed interest rates, generally near the prime, with repayment over as many as 10 years in monthly installments.

Washington has been a pioneer in innovative ways to assist families in meeting the cost of education, says Dennis J. Martin, director of Financial Aid. "We will do everything possible to assist families in meeting costs, particularly the more than 50 percent of our students who already receive financial aid."

## \$1 million grant

### Bohm gift to Technion, WU promotes better U.S.-Israel business relations

A grant of \$1 million to promote better and augmented business relations between the United States and Israel has been given jointly to the American Society for Technion — Israel Institute of Technology and Washington University's School of Business by Lee and Milford Bohm, long-time residents and civic leaders of St. Louis.

The grant, according to Milford Bohm, prominent businessman and philanthropist, will serve to "forge a permanent cooperative relationship between the two universities, enable outstanding Israeli students to pursue business studies here in the U.S., and allow business-oriented American university students and faculty to gain knowledge of and insight into Israel's business environment, universities, industry and general culture." The joint gift was announced by Chancellor William H. Danforth and President Max Reis of Technion in Haifa.

Bohm, founder and chairman of the board emeritus of CPI Corp., a \$200 million consumer service company based in St. Louis, and chairman of the board/CEO of Cencit Inc., a high-technology R & D company, said that the \$1 million fund established in his and his wife's name would "link Technion and Washington University together on a lasting basis and thus create a climate for rich and enduring cross-fertilization between the United States and Israeli worlds of business and their future leaders."

Bohm stated that Israeli students pursuing the MBA business degree at Washington University would be given a better and fuller grasp of United States business methods and realities, a development that he termed "extremely desirable, since it

is a crucial requirement for the growth of Israel's economy."

Bohm emphasized this point by stating his belief that "in the U.S. trade arena, Israelis will have to adapt to American business practices and not vice versa."

As Israel's major provider of scientific and technological manpower and the nation's foremost applied-research center, Technion's graduates now comprise some 70 percent of all the country's working scientists and engineers.

One-third of Israel's total export income currently derives from high-tech products based on scientific know-how and local innovation, and this percentage is expected to increase. In recent years, more than 150 high-tech companies have begun operations in Israel; many, if not most, owe their existence to Technion-trained scientists, Technion-conducted research or actual Technion assistance. More high-technology research and development are carried out at Technion than in all of Israel's other universities combined.

Bohm said "Our choice of Washington University as the co-recipient of this grant is because this is the leading university in our region and it has one of the leading schools of business in the heartland of America. Under the leadership of Chancellor William H. Danforth and Dean Robert Virgil, we believe that within a decade, this School of Business will be rated with the top five or six schools of business in the nation."

Bohm, who attended the University of Pennsylvania and The Sorbonne, is engaged in numerous top-level business, civic, community and

*Continued on p. 2*

Lee and Milford Bohm, long-time residents and civic leaders of St. Louis, have established a \$1 million grant to be given jointly to Technion — Israel Institute of Technology and Washington University.

## Brokaw named assistant dean

A. Van L. Brokaw has been appointed assistant dean, Faculty of Arts and Sciences for Admissions Strategy and Planning. The appointment, effective Feb. 2, 1987, was announced by Richard N. Rosett, vice chancellor and dean of the Faculty of Arts and Sciences.

Brokaw will be responsible for providing counsel to the Admissions Office on long-term marketing strategy. He will report to Rosett.

Brokaw has been an executive with Ralston Purina for the past 20 years and has been responsible for the growth of several of that corporation's major brands and new businesses. In recent years his successive positions there have been director of marketing for the International Division and director of strategic planning and new business development for the Grocery Products Division.

A. Van L. Brokaw

Rosett said, "Brokaw has achieved exceptional results in a broad range of very competitive con-

sumer markets. Washington University will be fortunate to have Brokaw's marketing and strategic planning assistance in the increasingly competitive student recruitment market."

Prior to working for Ralston Purina, Brokaw was an assistant dean at Colgate University. He received a bachelor's degree from Wesleyan University in Connecticut and a master's degree from the University of Missouri in Columbia. He has been on the faculty for the American Management Association and has published articles in professional marketing journals. He is on the advisory board of Washington University's International Affairs Program.

Brokaw is a member of the board of trustees of Children's Hospital, and has been president of the hospital's development board. He is on the board of directors of the Variety Club and the Kammergild Society. His recent civic endeavors for handicapped children include serving as president of the board of directors of the St. Louis Association for Retarded Citizens and co-chairman of the Citizen's Commission for Long-Range Planning for the Special School District of St. Louis County.

## 'Politics of Islamic Fundamentalism' is subject of Esposito lecture

John Esposito, professor of religious studies at the College of the Holy Cross and adjunct professor of diplomacy at the Fletcher School of Law and Diplomacy, Tufts University, will deliver the Islamic Society Lecture at 11 a.m. Wednesday, March 4, in Graham Chapel. Immediately following the lecture, a discussion with Esposito will be held from 12:15 to 1:15 p.m. in the Women's Building Lounge.

Esposito's lecture, titled "The Politics of Islamic Fundamentalism," is part of the University's Assembly Series and is free and open to the public.

Esposito is the author of numerous articles and six books that explore the connections between religion and politics in the Islamic world, women and Muslim law, and the resurgence of Islamic fundamentalism.

Two of his most recent books are *Islam in Asia: Religion, Politics and Society* and *Islam and Politics*.

Esposito, who studied at St. Anthony College, St. John's University, the University of Pennsylvania, the Middle East Center for Arab Studies (Shemlan, Lebanon) and Temple University, is a member of the executive boards of the Middle East Studies Association and the American Council for the Study of Islamic Societies.

He has conducted research in Southeast Asia, the Middle East and South Asia and is a member of the National Council of Churches Task Force on Muslim-Christian Relations.

Esposito's lecture is sponsored by the Islamic Society, Student Union and the Assembly Series.

For more information on the lecture, call 889-4620.

## Multi-image photo exhibit to open

Bart Parker, the Louis D. Beaumont Visiting Professor in the School of Fine Arts at Washington University, will exhibit his multi-image photographs March 3 to April 8 in University City. The opening reception for the exhibit is 7 to 9 p.m. Tuesday, March 3, in the art gallery of the new Center of Contemporary Arts (COCA), 524 Trinity Ave.

Parker, who is visiting the campus from Feb. 23 to April 10, is professor of art at the University of Rhode Island, Kingston. He delivered the Louis D. Beaumont Lecture Wednesday, Feb. 25, in Steinberg Auditorium.

His art includes words combined with visual images, multiple printing that joins previously unrelated realities, individual prints, and series that explore discrepancies among perceptions.

His work has been included in one-man shows and group exhibits

across the country and is owned by 25 public institutions, including the Chicago Art Institute and the Museum of Fine Arts in Houston.

Parker earned a bachelor's degree in literature from the University of Colorado at Boulder. He studied with Larry Colwell in Florida and later earned a master of fine arts from the Rhode Island School of Design.

His career started in photojournalism on southern daily newspapers during 1959. Clients included Time-Life Publications, Newsweek, National Observer, Associated Press and United Press International.

Parker's exhibit is curated by Marilyn Laufer, doctoral candidate in art history at Washington University. Gallery hours at COCA are 10 a.m. to 5 p.m. Wednesdays-Fridays and noon to 5 p.m. weekends. For more information, call COCA, 725-6555, or the art history department, 889-5270.

President Max Reis of Technion in Haifa (center) joins Dean Robert L. Virgil (left) of the School of Business and Chancellor William H. Danforth at the announcement of the \$1 million joint grant established by Lee and Milford Bohm.

## Bohm grant—continued from p. 1

philanthropic activities. Among many other achievements, he is chairman, Steering Committee, City Venture Neighborhood Development Corp. for the City of St. Louis; director, RCGA, St. Louis; director, Mark Twain State Bank; founding chairman, Council of Life Members, Jewish Federation of St. Louis; executive vice president, American Technion Society; and chairman, CPI Corp. Philanthropic Fund.

His wife, Lee, has been an active and dedicated community volunteer for nearly three decades: a past president of the Jewish Federation's Women's Division; past president of the Jewish Family and Children's

Service; and chairwoman of the local Soviet Resettlement Committee. She is chairwoman of the Vanguard Division for the St. Louis Jewish Federation's 1987 campaign.

Since 1940, American Society for Technion has carried out public information, educational and fundraising activities on behalf of Technion. Comprised of 11 regional offices, 65 chapters and a Women's Division throughout the United States, the society has thus far provided more than \$150 million for Technion classrooms, labs, libraries, dormitories, scholarships, research programs and operating expenses.

## Memorial set for Harold J. Barnett

A memorial service for Harold J. Barnett, Ph.D., professor emeritus of economics at Washington University, will be held at 3:30 p.m. Monday, April 6, in Steinberg Hall. Dr. Barnett died of cancer Wednesday, Feb. 11, at his home in Clayton.

Dr. Barnett joined the Washington faculty in 1963 as professor and chairman of the Department of Economics. At the time he stepped down as chairman in 1966, the economics department, since 1963, had more than tripled its faculty; graduate students increased from 30 to 80; and the number of undergraduates majoring in economics jumped from approximately 20 to 50.

He continued teaching and doing research in the areas of natural resources, economic development, government and business, and communications. He has written numerous articles and papers and his publications include *Scarcity and Growth*, *Atomic Energy in the U.S. Economy* and *Energy Uses and Supplies*. He was named professor emeritus in 1981.

Before coming to Washington, Dr. Barnett was a professor and chairman of economics at Wayne State University in Detroit. Prior to that he was director of Economic Growth Studies for Resources for the Future; head of the Washington, D.C., Economics Staff of the RAND Corp.; and technical adviser to the U.S. Interior Department.

Dr. Barnett received a bachelor's degree from the University of Arkansas in 1939 and a master's degree

from the University of California at Berkeley in 1941. He holds a master's degree (1948) and a doctorate (1952) from Harvard University.

Dr. Barnett is survived by his wife, Mildred; two sons, Peter L. Barnett of New York and Alex M. Barnett of St. Louis; a daughter, Katherine A. Barnett Schlichtig of Pittsburgh; and two grandchildren.

# NOTABLES

**Garland E. Allen**, Ph.D., professor of biology, has been appointed a visiting lecturer for the History of Science Society for 1987. Visiting lecturers give talks at host institutions on a topic related to their own research, but emphasizing the various roles that history (and philosophy) of science can play in academia today. Under the auspices of this program, he will visit Western Oregon State University in January; Lambuth College, Tennessee, in April; Alma College, Michigan, in September; and the University of Massachusetts at Amherst and Amherst College in October. In March, Allen will present a seminar at Cornell University on the role of agriculture in the historical development of American eugenics. In May, he will present an invited paper on the relationship between genetics, eugenics and agriculture at the meeting "Pratiques, techniques et theories dans l'histoire de la genetique, 1900-1960" in Paris.

**Karen L. Brock**, Ph.D., adjunct assistant professor of art history, presented a paper titled "Editor, Artist, and Audience in Japanese Buddhist Narratives" at the 75th Annual Meeting of the College Art Association in Boston. She has received a Japan Foundation Professional Fellowship to continue her research on medieval Japanese painting in Kyoto this spring.

**John E. Gilster**, D.D.S., professor of pediatric dentistry, recently received the Gold Medal Award from the Greater St. Louis Dental Society for his service to dentistry and to the society. The citation read "He has devoted his life to almost every facet of dentistry and has served the dental community beyond any reasonable expectations." The award is given annually to a member of the society who has distinguished himself/herself through outstanding service to the profession. It is the highest honor the dental society gives a dentist. Gilster was featured in the Jan. 21 issue of the St. Louis Post-Dispatch.

**Paul Jackson**, a starting forward on the men's basketball team at Washington, has been named to the GTE District VII All-Academic team, announced by the College Sports Information Directors of America. A systems science and mathematics major in the School of Engineering, Jackson was one of three front-court players named to the college division (NCAA Division II, III and NAIA) team. He has a cumulative grade point average of 3.87. Jackson is playing an integral part in Washington's basketball success this year, averaging 12.3 points per game, 6.1 rebounds per game and a team-high 3.3 assists per game. A two-year starter for the Bears, Jackson will be one of 24 college division front-court players on the GTE Academic All-America national ballot. A first-, second- and honorable mention team will be announced on March 2.

**Linda Muchisky**, operations manager of ambulatory services in the Department of Pediatrics, has been admitted to nomineehip in the American College of Healthcare Executives. The board of governors of the college approved her admission and formal conferral of the nomineehip will take place at the 53rd Convocation ceremony on July 26 in Atlanta, Ga.

**Annette R. Pedersen**, J.D., assistant dean for administration at the law school, recently lectured on "Conducting A Lawful Employment Interview" in managerial skills classes at the Graduate School of Management, Kent State University in Kent, Ohio.

**Peter H. Raven**, Ph.D., director of the Missouri Botanical Garden and Engelmann Professor of Botany, presented the keynote address Feb. 14 at the annual meeting of the American Association for Advancement of Science, held Feb. 14-18 in Chicago. His speech, "Killing Our World," focused on the global consequences of the population explosion, poverty, starvation, malnutrition, and the destruction and contamination of the world's natural resources. Five other Washington faculty and administrators gave presentations at the meeting: **Roy Curtiss III**, Ph.D., chair and George William and Irene Koechig Freiberg Professor of Biology, spoke on "Ethical Issues in the Use of Microorganisms"; **Jonathan I. Katz**, Ph.D., professor of physics, "Is Nuclear Winter Real and Relevant?" **Edward L. MacCordy**, associate vice chancellor for research, "The Impact of Proprietary Arrangements on Universities"; **Charles E. Molnar**, Sc.D., director of the Institute for Biomedical Computing, "Computers in Brain Research: Where Are the Frontiers?" and **Michel M. Ter-Pogossian**, Ph.D., professor of radiology, "Recent Developments in Medical Imaging."

**Gruia-Catalin Roman**, Ph.D., associate professor of computer science, participated in a panel discussion on the "Relation Between Data Engineering and Software Engineering." The other panelists were B. Boehm of TRW Systems Inc., Professor C.V. Ramamoorthy of the University of California at Berkeley and Professor S.S. Yau of Northwestern University. The panel discussion was part of the Third International Conference on Data Engineering, held Feb. 3-5 in Los Angeles. Roman also chaired a session on temporal databases.

**Carl P. Wellman**, Ph.D., professor of philosophy, presented a commentary to a paper by R. Lea Brilmayer of the Yale Law School on Feb. 13 at the Conference on Procedural Due Process: Liberty and Justice, held at the University of Florida, Gainesville. Wellman also has been appointed the 13th Annual Philosopher-In-Residence at Oklahoma State University. He presented a paper, titled "Prolonging Life/Delaying the Inevitable," at a public lecture at the university and he gave a paper on "Utility and Rights" to the Department of Philosophy at Oklahoma State.

## Have you done something noteworthy?

Have you: Presented a paper? Won an award? Been named to a committee or elected an officer of a professional organization? The *Washington University Record* will help spread the good news. Contributions regarding faculty and staff scholarly or professional activities are gladly accepted and encouraged. Send a brief note with your full name, highest-earned degree, current title and department along with a description of your noteworthy activity to Notables, Campus Box 1070. Please include a phone number.

## Mock trial triumph

# Law team wins regional contest; vies for national title in Texas

Repeating last year's triumph, a Washington University law school team has won first place in the recent Midwest Regional Competition. In March, the three-student team will compete in the National Mock Trial Competition in San Antonio, Texas.

Third-year students Gina M. Massari, of St. Petersburg, Fla., and Marc A. Lapp, a St. Louis native, and second-year student Alexander R. Iden, of Berryville, Va., will vie for the 1987 national title.

This year's winning regional team won first place out of 16 teams competing for the title at the University of Iowa in Iowa City. The law school has progressed to the national competition for the last seven years. In 1983 and 1986, Washington teams captured first place at the national competition.

For the second consecutive year, Washington also was the only law school in the Midwest competition to have two teams in the semifinals. The distinction is a first in the competition's history. The Washington teams were judged on their handling of a simulated bank robbery case, where state and federal judges presided.

The third-year students who advanced to the semifinals are: Ellen Berdy of River Edge, N.J.; Harris K. Weiner of Providence, R.I.; and Christine M. Ramatowski of St. Louis.

E. Thomas Sullivan, J.D., professor of law, is faculty coach for the team. Sullivan coached the 1986 regional and national mock trial winners as well. "The teams were very strong throughout the competition," he says. "I expect the team to do very well in the national competition."

In January, the law school held an intramural client counseling com-

petition at the University and the St. Louis County Courthouse. Approximately 150 students participated in that competition and about 130 legal and counseling professionals evaluated the students' work. Kenneth M. Chackes, J.D., visiting assistant professor of law, is faculty adviser and coach for the client counseling competition.

The intramural winners in the category for first-year law students are: Charles G. Huber of St. Louis; Christopher R. Hedican of Waterloo, Iowa; Stephanie B. Ferst of Evanston, Ill.; Julie A. Garrett of Omaha, Neb.; Gwynne L. Beatty of Portsmouth, R.I.; and Margaret L. Van Dijk of Ashland, Ore.

The second-year law students who won in the upperclass category are: Andrew M. Iserson of Huntington, N.Y.; Beth J. Solomon of Jackson, Mich.; Lisa A. La Conte of East Peoria, Ill.; Joy R. Urbom of Lincoln, Neb.; Debbie S. Champion of Paducah, Ky.; and Amy Jo Poor of Alexandria, Va.

In another competition round, Chackes chose La Conte and Urbom to compete in the March client counseling regional competition in Lincoln, Neb. Champion will be an alternate. The winning regional team will compete in the national and international client counseling competitions in Toronto, Canada.

Last year's client counseling team captured first place in regional, national and international competition. It was the first time a Washington client counseling team competed for the national title and the first time an international championship was held. Chackes also coached the successful 1986 client counseling winners.

# NEWSMAKERS

Washington University faculty and staff make news around the globe. Following is a digest of media coverage they have received during recent weeks for their scholarly activities, research and general expertise.

**A competitive personality** may provide the winning edge in career success, but in the romance area, competitive women don't fare as well. So says Michael Strube, Ph.D., associate professor of psychology in the February issue of *Mademoiselle*. Strube finds that Type A personalities break all the rules of romance and that may make some men feel threatened. This story has received national attention, including the *San Diego Union* and *National Public Radio*.

"**The underlying inflation rate** as it applies to higher education is about 2 percent above the nationwide inflation rate," says James Buchholz, vice chancellor for finance and administration, in the Feb. 5 edition of the *Wall Street Journal*. His comments were part of an extensive article on trends in industry and finance, of which college tuition is a part.

**Are the new toothbrushes really special?** According to Thomas Schiff, D.M.D., associate professor of diagnostic services and pathology at the School of Dental Medicine, the best toothbrush is one with soft, polished bristles of whatever type feels most comfortable in your hand. His comments appeared in a Feb. 9 article about dental care in the *Boston Globe*.

**Exercise, when paired with the** recommended 1,200 mg per day of calcium, can help prevent osteoporosis after menopause. This is according to Stanley J. Birge Jr., M.D., associate professor of medicine, in an article from the February issue of *Health Magazine*.

**Contact lens users beware.** A form of conjunctivitis (giant papillary conjunctivitis or GPC) — once quite rare — is becoming more prevalent as an allergic eye disorder among the 23 million Americans who wear contact lenses. "We advise all contact-lens wearers to follow the manufacturer's directions for cleaning lenses," says Floyce Ann Scherer, research assistant in ophthalmology in the January issue of the *American Journal of Nursing*.

# CALENDAR

Feb. 26-March 7

## LECTURES

Thursday, Feb. 26

**11 a.m. African Forum Series**, "Politics and Irony in West African Poetry," Thomas Knipp, English dept., St. Louis U. 349 McMillan.

**4 p.m. Public Affairs Thursday Series**, "Afghanistan's Hidden War: The Personal and Political Perspectives of a Foreign Correspondent," James Rupert, asst. foreign editor, Washington Post. Co-sponsored with the Assembly Series. Women's Bldg. Lounge.

**4 p.m. Dept. of Chemistry Seminar**, "Adiabatic Phase Factors of Molecular Quantum Mechanics," C. Alden Mead, prof. of chemistry, U. of Minnesota. 311 McMillan.

**4 p.m. Dept. of Philosophy Colloquium**, "Narrative Explanations: The Case of History," Paul Roth, assoc. prof. of philosophy, University of Missouri at St. Louis. Hurst Lounge, Duncker Hall.

**4 p.m. Dept. of Earth and Planetary Sciences Seminar**, "Geologic Setting of Early Hominid Sites at Olduvai Gorge and Laetoli," Richard L. Hay, U. of Illinois-Urbana. 102 Wilson.

**4 p.m. Central Institute for the Deaf (CID) Research Seminar**, "Biochemical and Biophysical Properties of the Tectorial Membrane," Isolde Thalmann, research asst. prof. of otolaryngology, WU medical school. Second floor aud., CID Research/Clinics Bldg., 909 S. Taylor Ave.

**4 p.m. School of Business Institutions Seminar**, "Interactions Between Economics and Psychology," Max Bazerman and Bob Weber, both from Northwestern U. 241 Simon.

**4:30 p.m. Dept. of Mathematics Colloquium**, "The Quasiconformal World," F.W. Gehring, prof. of mathematics, U. of Michigan. 199 Cupples I.

**8 p.m. Comparative Literature Committee Lecture**, "Jacques Derrida and the Discourse of Modernity," Ernst Behler, chairman of the dept. of comparative literature, U. of Washington-Seattle. Hurst Lounge, Duncker Hall.

**8 p.m. Asian Art Society Lecture**, "Tradition and Politics in Contemporary Chinese Painting," Chu-tsing Li, U. of Kansas. Steinberg Aud.

Friday, Feb. 27

**2 p.m. Dept. of Chemical Engineering Seminar**, "The Kinetics of Hybridoma Growth in Suspension Culture," Harvey Blanch, prof. of chemical engineering, U. of California-Berkeley. 101 Lopata.

Saturday, Feb. 28

**11 a.m. University College Seminar Series**, "Marbury vs. Madison Revisited: A Political Science Analysis of the Continuing Constitutional Debate Over the Role of the Supreme Court," Lucius J. Barker, WU Edna Fischel Gellhorn University Professor of Public Affairs and prof. of political science. Simon Hall Aud.

Monday, March 2

**4 p.m. Dept. of Psychology Colloquium**, "Principles of Neuro-psychological Development in Hydrocephalus," Ennis Berker, St. Lawrence Hospital and U. of Michigan, Ann Arbor. 102 Eads.

**4 p.m. Dept. of Biology Seminar**, "Neurogenesis in Drosophila," Spyros Artavanis-Tsakonas, Yale U. 322 Rebstock.

**8 p.m. Latin American Studies Lecture**, "Plant Sciences and Their Development in Latin America," Enrique Forero, director of research, Missouri Botanical Garden. Schoenberg Aud., Missouri Botanical Garden, 4344 Shaw Blvd.

**8 p.m. School of Architecture Lecture Series**, "Mies and the Figurative Arts," Franz Schulze, Hollender Professor of Art, Lake Forest College. Steinberg Aud.

Tuesday, March 3

**4 p.m. Dept. of Chemistry Seminar**, "Confusion and Controversy: 38 Years of the Polymer Excluded Volume Problem," A.J. Barrett, prof. of mathematics and computer science, Royal Military College of Canada. 311 McMillan.

**4 p.m. Dept. of Mathematics Geometry Seminar**, "Curvature, Hodge Star-Operator, Self-Dual Connections, Elliptic Complexes," Gary Jensen, WU prof. of mathematics. 199 Cupples I.

**The Land Down Under:** The Sydney Opera House in Australia is one of the sights captured by film producer Doug Jones during his cruise aboard the Queen Elizabeth 2. The Washington University Association travel-lecture series presents "QE2 Sails New Zealand and Australia" at 6 and 8:30 p.m. Friday, March 6, in Graham Chapel. For ticket information, call 889-5122.

Wednesday, March 4

**11 a.m. Islamic Society Lecture**, "The Politics of Islamic Fundamentalism," John Esposito, religious studies, College of the Holy Cross. Graham Chapel. A discussion in the Women's Bldg. Lounge with Esposito immediately follows the lecture. Also sponsored by the Assembly Series and Student Union.

**4 p.m. Dept. of Physics Colloquium**, "Why Was the Universe So Hot?" Wai-Mo Suen, research associate, U. of Florida. 204 Crow.

**6 p.m. Human Resources Management Organization Speakers Series**, "Recruiting on Campus: A Perspective from the Workplace," Amanda Shapiro, personnel associate at C.V. Mosby. 113 Simon.

Thursday, March 5

**11 a.m. African Forum Series**, "The Tie That Binds: Relations Between Africans and African-Americans," an open discussion. 349 McMillan.

**4 p.m. Central Institute for the Deaf (CID) Research Seminar**, "Spatial Temporal Transformations in the Vestibular Ocular Reflex," Stephen Highstein, prof. of otolaryngology, WU medical school. Second floor aud., CID Research/Clinics Bldg., 909 S. Taylor Ave.

**4 p.m. Public Affairs Thursday Series**, "Editing an Editorial Page," James W. Davis, WU prof. of political science and former editorial page editor of the St. Louis Globe-Democrat. Eliot 200 C & D.

Friday, March 6

**9 a.m. Dept. of Psychology Colloquium**, "Groups That Fly," Richard Hackman, dept. of psychology, Yale U. 107 Simon.

**2 p.m. Dept. of Chemical Engineering Seminar**, "Aspects of Liquid Fluidization," Simon P. Waldram, prof. of chemical engineering, University College, London, England. 100 Cupples II.

**6 and 8:30 p.m. WU Association Film Travel Lecture Series**, "QE2 Sails New Zealand and Australia," Doug Jones, filmmaker. Graham Chapel. For ticket info., call 889-5122.

## PERFORMANCES

Friday, Feb. 27

**8 p.m. Edison Theatre Presents** Molissa Fenley and Dancers. Co-sponsored by Dance Saint Louis. (Also Sat., Feb. 28, same time, Edison.) General admission is \$15; WU faculty and staff and senior citizens, \$10; students, \$7. For more info., call 889-6543.

## MUSIC

Thursday, March 5

**8 p.m. WU Wind Ensemble Concert** at Southern Illinois University-Edwardsville Communications Bldg. Theatre.

Friday, March 6

## 16th-century music ensemble presents Elizabethan tunes

The Musicians of Swanney Alley, a 16th-century early music ensemble, will present "Of Byrdes, Battles, Beauties and Bees: Music of Shakespearean England."

The concert, co-sponsored by the St. Louis Classical Guitar Society and the Washington University music department, will take place at 8 p.m. Friday, March 6, at The Sheldon, 3648 Washington Ave.

A free shuttle service to and from the concert will be provided for the Washington community. The shuttle schedule is: leaves 7:10 p.m., Wohl Center (lower-level parking lot); 7:15 p.m., Mallinckrodt Center; 7:30 p.m. medical school (loading dock on Scott Ave.); and arrives 7:40 p.m. at The Sheldon. The return shuttle will depart at 10:15 p.m., making the same stops.

Members of The Musicians of Swanney Alley will give a lecture-demonstration, which is free and open to the public, from 4-5 p.m. March 6 in Blewett Hall, Room 8.

Headed by virtuoso lutenist Paul O'Dette, The Musicians of Swanney Alley have received enthusiastic acclaim in the United States and Europe for their "joy de vivre, sharp rhythmic sense and technical elan." Following their St. Louis appearance in 1984, the St. Louis Post-Dispatch said, "There is nothing dry or academic about their playing . . . (they) know how to invest 16th-century music with life . . ."

The program will include popular Elizabethan tunes, music for voice and viol, theatre music, consort music, and lute solos and duets by composers John Dowland, William Byrd, John Johnson, Thomas Robinson and Richard Allison.

Ticket prices for the concert are \$10 to the general public and \$6 for students, senior citizens and Guitar Society members and are available at Ticketmaster locations by dialing Dialtix (421-1400), or at the door. For information, call 725-0739.
